PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building and scaling production-ready web applications. Proficient in engineering secure backend services with Python, FastAPI, and MS SQL Server, alongside developing responsive, dynamic user interfaces using Next.js (TypeScript) and React.js. Proven ability to architect RESTful APIs, implement complex database schemas, and enforce enterprise-grade security protocols (JWT, RBAC) for end-to-end full-stack solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Frontend: Next.js, React.js, Bootstrap, Responsive Web Design, JSON/API Integration

Backend & APIs: FastAPI, SQLAlchemy (ORM), RESTful APIs, JWT Authentication, SMTP Integration

Databases: Microsoft SQL Server (MS SQL), MySQL

Tools & Workflow: Git, GitHub, Postman, VS Code

PROFESSIONAL EXPERIENCE

Full Stack Developer — KAN Infocom

July 2025 – Present | Mumbai, India

- Co-developed a full-stack Job Portal (naukri.kaninfos.com) using Next.js (TypeScript) for the frontend and FastAPI with MS SQL Server for the backend.
- Built secure backend APIs with SQLAlchemy ORM, JWT authentication, RBAC, and automated OTP email verification via SMTP.
- Implemented enterprise security features including 5-attempt account lockout and password rotation policies.

Web Development Intern — Brainwave Matrix Solution

Sep 2024 – Dec 2024 | Mumbai, India

- Converted UI/UX Figma templates into responsive, interactive frontend web pages and reusable components using React.js, HTML5, and CSS3.
- Implemented client-side state handling and form validations while ensuring mobile-friendly cross-browser compatibility.

KEY PROJECTS

Voice-Activated Automation Agent

July 2023 – Dec 2023

Technologies: Python, pyttsx3, SpeechRecognition, SMTP

- Developed an intelligent local virtual assistant using Python, pyttsx3, and SpeechRecognition to automate desktop workflows.
- Integrated system APIs and external requests to enable voice-controlled browser navigation, dynamic web searches, and media playback.
- Implemented the SMTP protocol with Python to authenticate and send voice-dictated emails programmatically.

Interactive Web UI Clone (Alpine River Hill)

Sep 2024 – Dec 2024

Technologies: React.js, JavaScript (ES6+), Bootstrap

- Engineered a high-fidelity frontend replica of a responsive web application utilizing React.js, JavaScript (ES6+), and Bootstrap.
- Built a modular, component-based architecture by developing reusable functional components for navigation, modals, and core page sections.
- Managed UI state and implemented adaptive, mobile-first styling to ensure a seamless and responsive user experience across devices.

EDUCATION

Bachelor of Engineering in Computer Engineering

Completed: May 2024

Watumull College of Electronics Engineering, Mumbai

Diploma in Computer Engineering

Completed: Jan 2021

Maratha Mandir's Babasaheb Gawde Institute of Technology, Mumbai
